COPYWRITING SAMPLES SHORT FORM - MEDICAL

Kurtzman Plastic Surgery

Could you go to a friend's Botox party and get a treatment by a party planner? Or get an injection from your dentist after a root canal? Sure, but doesn't your face deserve better than that? Dr. Kurtzman is a National Trainer for Botox, Juvederm and Latisse He's the one practitioners trust to show them the best way to administer these products. And he's right here in Kenwood! Schedule your Botox treatment today!

Liposuction is a wonderful solution for disproportionate fat deposits that do not respond to exercise and diet. It is not, however, a substitute for diet and exercise. Ideal liposuction candidates have good muscle tone and are within 30% of their ideal weight. If you are considering liposuction, please schedule a consultation when we return to the line. If we find that liposuction is not right for you, we will work to find a procedure that will get you the results you want.

Kidney and Hypertension Clinic of Alaska

The number one way to lower your blood pressure is to lead a healthy lifestyle. Quit smoking, reduce alcohol consumption, eat foods low in sodium, avoid processed foods and get plenty of exercise. Simply taking a walk every day is a great first step toward lowering your risk of hypertension. Speak with your physician at your next appointment about more ways to naturally lower your blood pressure.

Did you know that there are over 150 Alaskans on the waiting list for a kidney transplant? Kidney disease impacts tens of thousands of Alaskans, with the number of patients with zero kidney function more than doubling in the last 10 years. Living kidney donations change lives, for the recipient and the donor. If you are considering making a kidney donation to a loved one, or someone you haven't met, we will be happy to give you the information you need to make your decision.

Apache Junction Pediatrics

It's no secret that kids prefer junk food to healthier options. But how much junk food is too much? Your child may need a daily multi-vitamin or additional nutritional supplements. At Apache Junction Pediatrics, we care about our patients' health, and we will do our best to educate you on how to help your kids live a healthy lifestyle. Apache Junction Pediatrics – promoting healthy bodies, healthy minds, and healthy lives ... one child at a time.

Arch Creek Animal Hospital

Just as it's important for you to see the dentist for regular cleanings, it's important for your pet, too. Dogs and cats are extremely susceptible to tooth decay and disease, including gingivitis, which can lead to overall poorer health if left untreated. To keep your pet's teeth healthy, you can brush their teeth with special animal toothpaste and a soft finger brush, and be sure to see your veterinarian for routine dental cleanings.

VITAS Hospice Care

Thank you for calling VITAS. Our loving staff of employees and volunteers treats each day as a brand new start. We address each visit with our patients as if it were the first, paying close attention to their needs and wants. Each day brings new challenges, and this gives our staff the ability to further develop the skills needed to help you cope during this difficult time.

VITAS volunteers come in many shapes and sizes, including four-legged and furry. Our registered pet therapy dogs bring joy to many of our patients. Pets have a way of touching our lives like no one else can, and we want to be able to share that kind of experience with our patients. Patients thrive on the unconditional love offered by these dogs, and we are honored to have them on our team of volunteers.

Virginia Center for Women

The best way to fight breast cancer is to have a plan that helps you detect the disease in its early stages. You can create your own early detection plan by conducting self breast exams and scheduling annual clinical breast exams and mammograms here at Virginia Center for Women. The earlier breast cancer is detected, the better chance we have to conquer it. We will be happy to schedule your appointment when we return to the line.

A Better Life Chiropractic

If you are pregnant, one of the best things you can do is see a doctor of chiropractic medicine. As pregnant women are more susceptible to low back pain, sciatica, hip pain and numbness and tingling in the limbs, chiropractic therapy can help ease the discomforts. Chiropractic care ensures your body is healthy and strong, has been shown to shorten labor by 50-60%, lessen medication requirements by at least 50%, and may help deliver healthier, full-term infants.
